

Dear Families,

Cars, trucks, and buses- these are all transportation vehicles that your child sees daily. Because of the children's interest, our theme for the week of May 3-7 is *Transportation*. Through participating in the planned activities, the children will learn that there are many colors, sizes, and kinds of cars, trucks, buses, and various other vehicles. We will learn the meaning of the word vehicle and we'll brainstorm a list of vehicles and decide if it moves on air, land, or water. We will be graphing our favorite mode of transportation and learning a few things about wheels. The activity is called "The Wheel World".

Friday is Father Larry's birthday. We will be making a card for him in which all the students in preschool will sign it. Also Friday is the May Crowning of Mary. P2 will attend Mass for this special occasion. Please join us, if you can.

We have been practicing fire drills and tornado drills in school. Your child may ask you about this. So far, no one has been frightened by these drills. I always explain what is expected of them and why- -stressing safety for them. For the month of May- Color: pink Numbers: 15-20 Shape: general review of those previously learned

Thank you to those that have already brought items for the 4th of July basket for the Golf event in June. (Please refer to the colored sheet, which was sent home last week, for further details.) So far, I have only gotten 1 volunteer to put the basket together. Thank you Rebecca Dreidger.

I need to ask for one more thing: we need a couple more rolls of paper towels to finish out the year. Quite awhile back I had asked P2 to donate some, so if you did then, do not feel the need to do so again. THANKS!

God bless,
Mrs. Owens
