Dear Parents:

We are looking forward to another exciting school year at John Paul II! We may be packing up our favorite children's artwork as we start the summer, but the teachers and staff are already preparing for the upcoming year full of unbelievable opportunities for education, community building and fun! I am sure your family is already thinking about the upcoming school activities:

- Field Trips
- Student Council Leadership
- Halloween Dance
- Carnival
- First Communion and First Reconciliation

Your child will experience all of these activities, along with a rigorous curriculum and the special opportunities for weekly mass. We are so fortunate to have religious education incorporated into the curriculum.

On our recent parent survey, a few of our John Paul II parents had these words to share about their experience at John Paul II:

"I feel so fortunate that my children have this opportunity for an unsurpassed education and a faith filled environment. I feel the self discipline learned in these halls gives them a huge advantage when they step into my classroom in senior high." Steve Morgan

"When we moved to town, I wasn't sure what to expect in a Catholic school, the experience has exceeded both mine and my children's expectations!"

"This school has been a blessing for my family, not only do we get to participate in the mass with the children, but the curriculum has been rigorous and prepared them well for the middle and high school experience."

As a parent and as president of the education committee, I am pleased to see the advantages John Paul II is giving to my children. I am looking forward to watching our children enjoy this year together!

Yours very truly,

Dave Bechen
President, Education Committee
